

## ARIZONA welded mesh fence for large open spaces

Effective protection

ARIZONA welded mesh fence is ideal for delimiting large open spaces such as forests, orchards, parks, roadsides (edge of motorways, railways, etc.).

### Strong points

Sturdy

- Prevents the passage of animals: mesh gradually becomes tighter towards the bottom.
- Special hunting version: lower part designed to be buried
- Corrosion resistant: crimped horizontal wires allow water to slide off, preventing formation of rust points.

Quality of finish

- ARIZONA ZN – made of galvanized wire
- ARIZONA PVC – high adhesive plastic coated on galvanised steel with 10 years Fluidisation guarantee

Easy installation

- On UNIVERS posts with stapling system

Economical

- Product available in 50 m rolls

Options

- Many possible configurations with UNIVERS post (installation with security extension arms, baseboards)
- Other models on request

### General characteristics

Finish/ standard	Mesh width (mm)	Model	Ø Wire (mm)	Fence height (m)	Packaging
High adhesion 6005 green plastic coated on galvanised steel according to standard NF EN 10244-2	152,4	ARIZONA PVC	2,30	1,00	50m roll
	152,4		2,30	1,30	50m roll
	152,4		2,30	1,50	50m roll
	152,4		2,50	2,00	50m roll
Galvanised wire according to standard NF EN 10244-2	152,4	ARIZONA ZN	1,80	1,00	50m roll
	152,4		1,80	1,30	50m roll
	152,4		1,80	1,50	50m roll
	152,4		2,00	2,00	50m roll

According to new European standards.
